

ASIS/T

11/1/21

RDM panel (Paper series - 10)

- ① unstructured descriptions of  
r. data ("data summaries")
- var. info — across platforms
  - model in paper — abstract  
as a common (b-1)  
practices

paper abstracts = the past  
data descriptions = the future

structured metadata > "250 word  
text blocks"

prelim principles: - context highlighting  
create 1

- structure - describe technical w/ abbrev. - to search
- the summary - appropriate to all potential audiences
- as an independent research output

Q+A  
- what is a "person"? (too broad)

vs. "lang. of interest & potential audience"

account for qual. vs. quant.,  
but assume audience is

looking for "data"

1 sensitive data + "collectible harms" + Privacy Encodings for sensitive data (PESD)

cf. Qualitative Data Repository

cf. local context, orgs

→ PII / human subjects

° Geolocator

° I.P.

cf. "Privacy Encodings"   
 "sensitive project"   
 "sovereignty"

privacy = contextual integrity

transmission - principle

future: (breaking access vs. digital preservation)   
 Cor. knowledge - prot. tool. for QDR

? An IRB is   
 ethically   
 unaware?

# Info FAIR

specificity vs. generality

AP (appl. profil) - info schema  
2. - interoperability  
across schemas

## Queer Enslavement as an Archival Format

- identity + "politics of destabilization"
- exposing descriptive pitfalls!  
(cf. Joe Cardenas' controversies)

NB

- misgendering in representation, description, cataloging etc.
- absolute format
- How is gender learned + unlearned?
- ethical responsibilities of info. pros.?

ch. Adler - "Crising the Library"

Info practices + concepts of "everydayness"?

cataloging

Emph. on context

Gendering - fall back to pronouns

W/ "describing what identifying"

Embodied + Affect ... Fun f.c.

Emb. Affect +

Affect in LIS

- literacy / physicality

- ~~Affect~~ + "feelings"  
Emotion Theory

"Anxiety" / negative  
feelings w/let.  
No practice

- overall: binarize

body X mind binary

vs. queer  
theory

Queering bodies + minds

"Queerly" = thinking about normative structures

Affect as embodied thought

cf. Halberstam (sic) : beyond social constructions of  
body, space, time  
(esp. re: digital spaces)

(cis / heteronormativity)

Fandom : embodied + affective writing

: platforms, digital spaces

politicizing of queer bodies in "acceptable" spaces

White queerness (+ required tags)

- race / racism de-prioritized in  
descriptive structures

cf. \* Sarah Ahmed

Affect + info. section

+ sexual health info - section ...

(NB) research methods - interviews

- ~~social theory~~  
sociotechnical studies

◦ linking info section

- <sup>o.s.</sup> (DIY) baggage,  
connotations,  
impact on  
trust of info

- coding (axial ...)

"I thought there  
would be a lot  
more prim. in  
search results"

typology of affect

prim. as point of entry, info. sources,  
addtl. affective components

affective reactions + histories

Queer Arc of the Catalog - B.M. Watson

the usual (hi)story of cataloging, classification

- surrogates of documents
- accounts of holdings
- arrangements of material
- retrieval

"Description has never been an archival function" -

(ble contingent,  
ideologically +  
historically)

WEBCH2H2MS

particular vs. uniformity + separateness

Archivist - governing the catalog

homosaurus.org - link. 1 when  
vocabulary ...

consists -  
[ ~~LC~~ LC subj. headings ]  
omissions

! Digital Transgender Archive

New York >

Stanwell >

LGBTQI

phenomenological + LIS + Queer Theory

cf. Sarah Ahmed - Queer Phenom.

- destabilization — +  
reorientation. —

(+ Judith Butler - gender - performance)

E. Solomon - Life & death of <sup>movement like</sup> ~~Leitmotif~~

Heidegger - "... spirit " + binaries

marginalization / harm as phenomena -  
experiences?

Internet histories (journal?)

isolation — of LIS + critical inquiry

"diversity" + neo-liberal  
[as "descriptors"] logics

related to  
other fields
